## EXPERIENCE

Maven Youth Tech Camp July 2016

### **Instructional Assistant**

- Technologies Used: Python (Ren'Py framework), FireAlpaca
- Assist group of 12 high schoolers in programming, illustrating and writing their own computer game

General Assembly, NYC March-June 2016

### **Web Development Immersive**

- Learned full-stack web development during 12 week intensive program with a focus on Ruby on Rails and JavaScript

Projects Included:

#### **WhatSong**

- Technologies used: Rails, Spotify API, Bands in Town API, jQuery, HTML and CSS (Skeleton framework)
- Built an application that allows users to create an account and vote on what song they would want to hear an artist play at an upcoming concert

#### **Heisenbug**

- Built a multi-player game using jQuery, HTML and CSS

#### **Brooklyn Whinery**

- Technologies used: Ruby (Sinatra), PostgreSQL, jQuery, CSS and Material Design; hosted on Heroku
- Built a forum that generates wine tasting menus based on user's moods

#### **Hailey Codes**

- Technologies used: HTML, CSS (Material Design) and JavaScript
- Designed and built personal website to showcase portfolio

Media Hive, NYC November 2014-January 2016

### **Project Manager**

- Oversaw full-cycle website builds
- Worked with Client Partner, Front-End UI & Back-End SI Architect Leads to gather business and technical requirements
- Identified scope of work
- Estimated level of effort and develop detailed project plans, budgets & Statements of Work.

QBS Learning, NYC February-November 2014

### **Project Manager**

- Managed the rights and clearance process of digital and print media
- Acted as a liaison between the authors, editors, and rights holders to ensure that all third party material is accurately recorded
- Analyzed and negotiated legal contracts on behalf of clients

---
